

## How to integrate PayU payment gateway on Shopify?

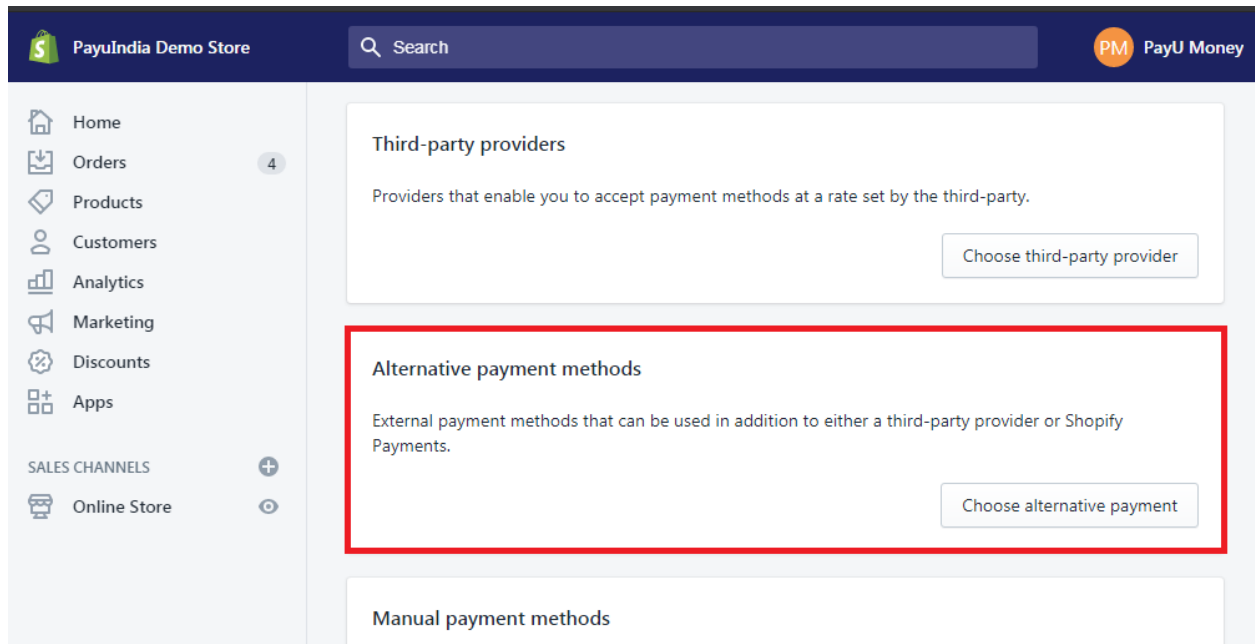

1. Log in to your Shopify account
2. Click on the Settings option in the Left-hand side menu

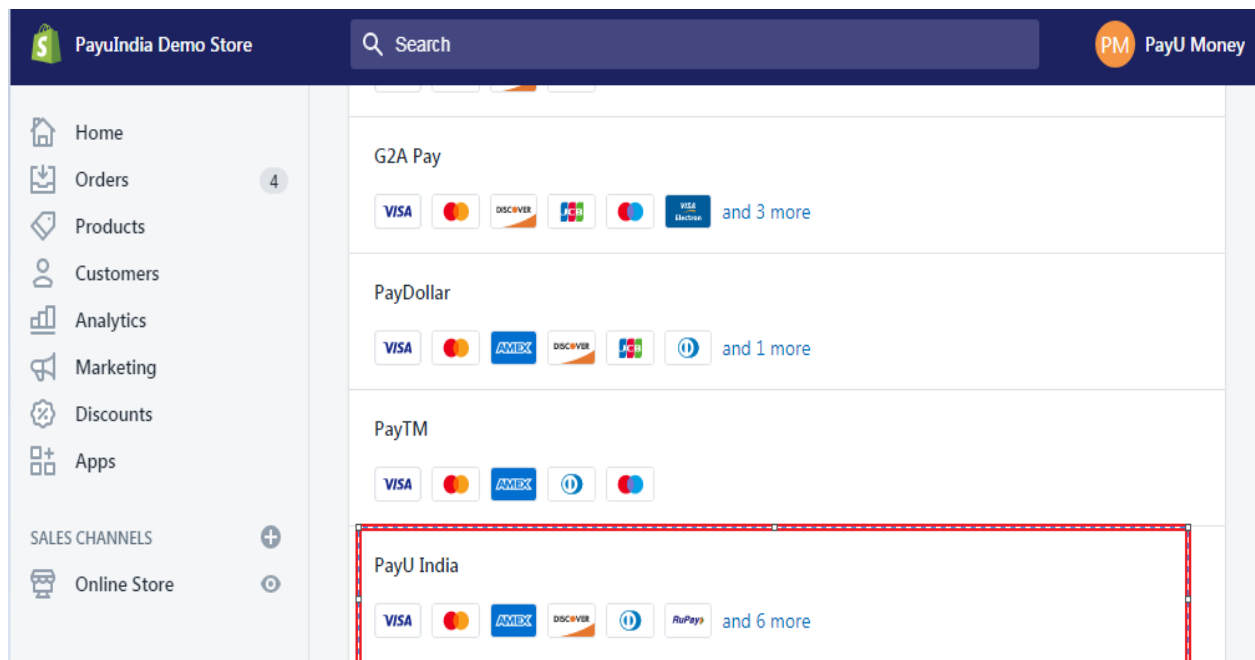

3. Go to "Payments"

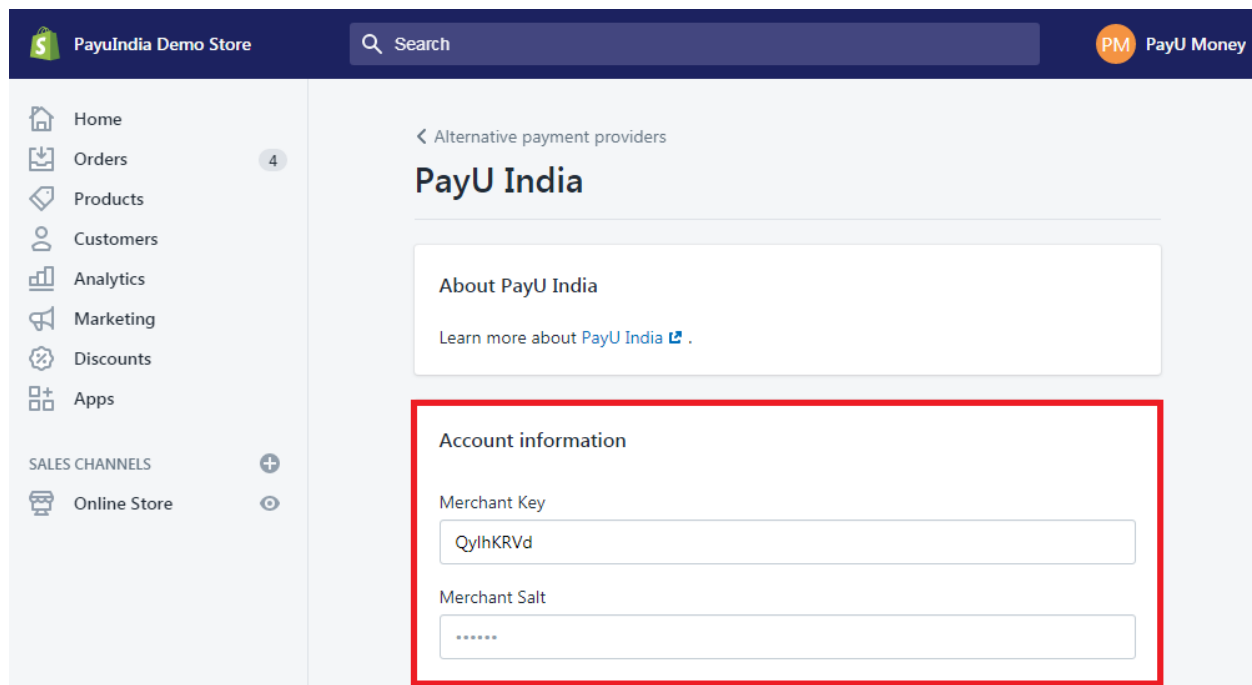

4. Click on “Alternative payment Methods”

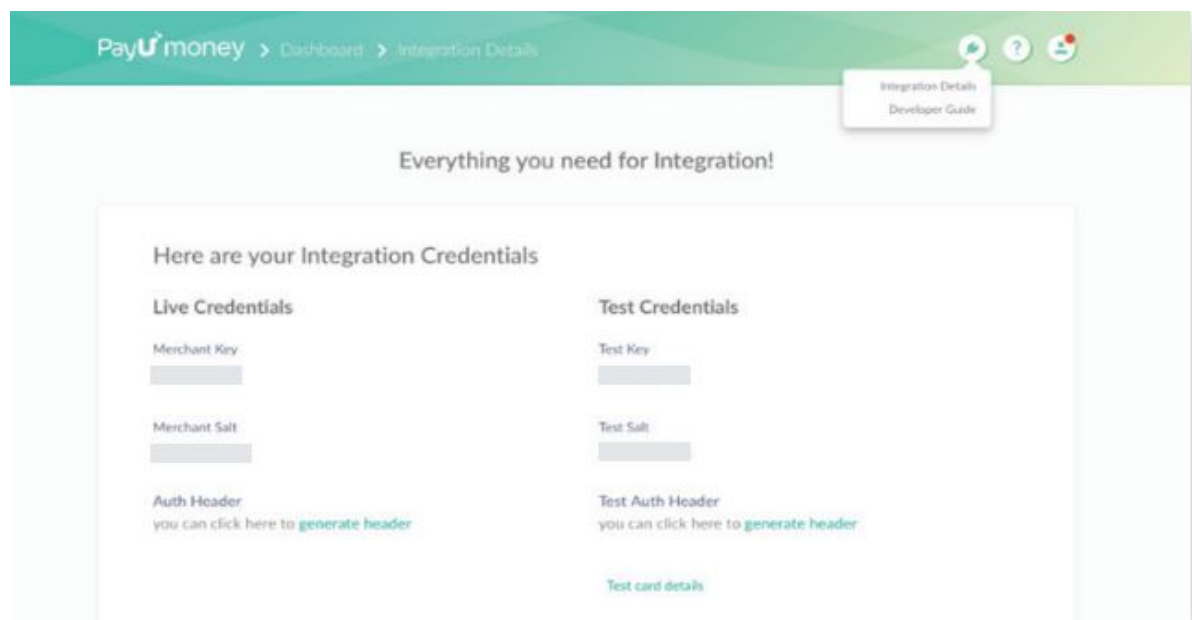

5. In 'Alternative payment methods, select PayU India

6. In the PayU India configuration page, update the key and salt values. You can get your key and salt from the profile section of your Payu Dashboard.

- If you are already a PayU Merchant, you can find your **Merchant Salt and Merchant Key** from the profile section of your [PayU dashboard](#). Click on the Profile tab at the top right corner of your PayU dashboard. Under the “Integration Details” tab, you will find your Key and Salt.

- New merchants can sign up on [PayU](#) in minutes to get their key and salt details.

7. Now, click on “Activate PayU India”. You can also test the integration using the option “enable test mode” and the test key and salt provided by PayU.
